

Be part of

Showcasing Urban Trees for
Environmental Education

We cordially invite you to attend a free online course for teachers and teacher educators!

- Get fit in urban climate education
- Be part of an international teacher community
- Get to know your own surroundings and those of the other participants
- Create environmental learning activities for your students
- Use inquiry-based learning in your teaching
- Merge green competences and digital competences.
- Pimp your lessons using digital devices (IoT, AI, etc.) and international data sources
- Incorporate urban nature and climate into your lesson plans

Save the dates!
